‘I WANT TO CAPTURE THE IRREGULARITY OF THE UNIVERSE.’

--JEAN SCHLUMBERGER

As one of the 20th century's most gifted artists, Jean Schlumberger is renowned for his fantastical creations infused with wit and curiosity. With extraordinary gemstones as his palette, he transformed nature's wonders into objects of mesmerizing beauty, and strong, sculptural designs into magnificent bejeweled statements—unrivaled in the world of jewelry design.

This 8.37 carat Burmese sapphire ring was designed by Jean Schlumberger for Tiffany & Co. The center stone has been graded as 'royal blue' by GRS. Mounted with yellow gold, round, and marquise shape diamonds on each side to resemble bees, attributing itself to Schlumberger's classic style of applying animal motifs in his jewellery designs.

Jean Schlumberger 作為20世紀最具天賦才華的藝術家之一，以注入巧思及好奇心的奇幻作品而聞名。他以非凡的寶石作為調色盤，將大自然奇跡轉化為美不勝收的作品；將強而有力、具雕塑感的設計塑造為珠寶設計世界中無可比擬的絢麗瑰寶。

此枚8.37克拉緬甸藍寶石戒指正是由Jean Schlumberger為Tiffany & Co設計。主石經瑞士彩色寶石鑒定機構GRS評定為‘皇家藍’，兩側分別用黃金鑲嵌圓形及橢圓形切割鑽石，打造出‘蜜蜂’造型，延續了Schlumberger將動物元素運用到珠寶設計中的一貫風格。

PANTHÈRE DE CARTIER

In 1914, Louis Cartier first asked artist George Barbier to paint a painting named "Lady with a Panther", which was then used on an invitation for a Jewelry show of Cartier. That same year, the panther print was first used on a lady's watch made with diamonds and onyx, and since then, the panther has since been a great inspiration for the brand. Even early on, the Panther often appeared on custom jewelry ordered by men and women of high status such as the Duchess of Windsor and Prince Sadruddin Aga Khan. Even today, many of Cartier's custom-made pieces feature the panther, and has further become a significant icon of Cartier.

The panther is an elegant creature of power, mystery, and vibrant energy. Its masculine unruliness mixed with its feminine feline characteristics, make the Pantheré series loved by both men and women. Furthermore, with Cartier's excellent craftsmanship, the panther, made from hard materials like diamonds and other gemstones, is crafted into a soft silhouette. Gemstones, being natural jewels of the Earth, combined with the wildlife characteristic of the panther, creates a masterpiece blending jewelry and nature into one.

This lot features a panther made of diamonds and onyx, and embellished by emeralds, to create a beautiful necklace. The design demonstrates a softness of the feline with the use of emerald drops, and a powerful symbol of the panther with the diamond panther head. This lot is truly one to be collected and admired.

1914年路易·卡地亞委託藝術家喬治·巴比耶製作一幅《淑女與美洲豹》（Lady With a Panther）插畫，用作珠寶展的邀請函後，美洲豹就與Cartier結下不解之緣。同年，品牌製作縞瑪瑙和鑽石組成美洲豹紋圖案的女士腕錶，美洲豹系列首度面世。而早期，美洲豹的元素常常被用在有身份地位的人士所訂製的珠寶上，如溫莎公爵夫人及撒卓汀·阿迦汗王子。如今，美洲豹的元素也常常出現在品牌的許多高級訂製珠寶上，也成為了卡地亞一個象徵性的代表。

美洲豹是一個高貴優雅的動物，充滿著力量、神秘感、以及活力。它的野性象徵著較為男性化的權力與力量，與貓科般的女性特質融合使男女都鍾愛卡地亞的美洲豹系列。加上卡地亞精湛的工藝為剛硬的材料（如鑽石及其他寶石）附上柔美的線條。卡地亞也成功的將大自然與珠寶結合，將大自然彩寶與動物類的美洲豹為主題融為一件美麗的作品。

此件拍品呈現的是一件美洲豹造型鋪鑲鑽石，黑瑪瑙，及祖母綠點綴的項鍊。這設計利用水滴型吊掛的祖母綠來表現貓科動物的柔軟，加上象徵著力量的美洲豹鑽石頭造型打造一件引領時尚值得珍藏的作品。

"Lady with a Panther" drawn by George Barbier for Louis Cartier, used as an invitation in 1914. (Image Source: Cartier Website)

Origin: Kashmir

“SAPPHIRE IS THE MOST CHEERFUL OF ALL GEMSTONES. IT FREES THE SPIRIT AND CREATES WELL BEING”

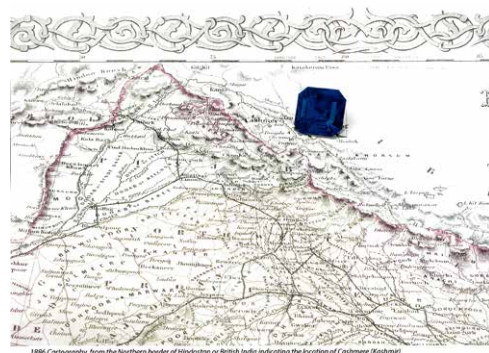

ROBERT BURTON

Kashmir, a remote region which has the finest specimens and defines the northern most border between China, India, Pakistan and Afghanistan. The gems are formed by the intersecting movement of three prominent mountain ranges including The Himalayas. The legendarily exquisite sapphires from Kashmir have been disclosed after a rock slide in the Himalaya mountains in 1881. Although Kashmir has produced only a limited number of gems since then, the soft, velvety blue of Kashmir sapphires remains the epitome of this gem variety, and is highly regarded by connoisseurs and collectors alike. Gentle and demanding at the same moment, both gleaming and flattering, the typical hue of Kashmir sapphires is among the most sought after of colours. The velvety blue of this sapphire is due to very fine and subtle inclusions and a combination of well-balanced trace elements in the gemstone, which are typical and characteristic for the finest sapphires of Kashmir.

A Kashmir sapphire with excellent quality and size is extremely rare to be found and every time record- breaking. Undoubtedly, this 11.03 carats square-shaped Kashmir sapphire and diamond ring is one of the finest Kashmir sapphires among the century in honor of its saturated and homogeneous color, high degree of transparency, very fine purity, and a perfect proportioned cut, which could be considered very rare and exceptional.

若論藍寶石中之騏驎，喀什米爾藍寶石當之無愧。她嬌豔絕倫，色澤濃純，獲認為稀世珍寶，吉光片羽，流傳於世之量寥寥無幾。喀什米爾地區位於中國、印度、阿富汗、巴基斯坦交界的最北面山區喜馬拉雅山脈。1881年，喜馬拉雅山脈中的紮斯卡山脈泥傾瀉後，喀什米爾藍寶石礦床嶄露頭角，卻一鳴驚人，聞名於世。但由於海拔極高、終年積雪、氣候惡劣和政局動盪等種種不明朗因素，礦床只在1881至1887年間被間歇開採，產量極少。直至上世紀初，礦源已開採消耗殆盡，從此再也沒有發現新的礦床。基於這個原因，喀什米爾藍寶石在今日以少之又少的數量流傳於世，其高品質不單單為所有藍寶石提供品質標準，並已幾乎成為神話。

藍寶石以高度飽和度的深藍至純藍色的色調尤為著名，內部往往含有極其細微的絲狀內含物，使堅硬剛強的金屬質感中展現出如絲綢般柔美的絲絨質感。市場上極少出現品質重量皆佳的喀什米爾藍寶石，每次的出現都叫人趨之若鶩。此枚方形切割11.03克拉喀什米爾藍寶石戒指正是一枚顏色、淨度、重量皆為絕色的佳品，完美展現著喀什米爾藍寶石中極其細膩的絲絨特徵，無出其右，獨一無二，極具收藏投資價值，值得世代流傳。

A SUPERB 14.35 CARAT COLOMBIAN EMERALD AND DIAMOND RING

The characteristic green hue of emerald has been a fascination for mankind over six thousand years. It is always associated with the lushest landscapes and the richest greens.

Colombia is the most famous and high-quality emerald producing area in the world. It is famous for its purity of color and texture. Only top-quality emeralds with excellent color, crystal and clarity that originated from Colombia can be called Old Mine Type Emerald. This lot is definitely an outstanding example of this kind. It displays a characteristic rarely seen in emeralds, which has been completely spared from any clarity treatment. Weighing more than 14 carats, What's more, it does not have any internal fractures to benefit from oil or resin fillings. In addition, it has an exceptional vivid green color, highly transparent and strongly saturated, bringing a sense of clarity and rejuvenation. The existence of such a rare treasure is in effect extraordinary, making it a true connoisseur's gem.

祖母綠的標示性濃豔綠色已令人們為之著迷近六千年。無論陰天、晴天，也無論在人工光源或自然光源下，他都會散發自然、溫暖而濃豔的光環。

哥倫比亞為世界上最著名和優質的祖母綠產地，以顏色和質地之純正聞名於世，而只有哥倫比亞在歷史上產出的無論從顏色、晶體、淨度都異常出色的頂級高品質祖母綠，才能被稱作為老礦祖母綠（Old Mine Type Emerald）。本件拍品所呈現的便是哥倫比亞老礦祖母綠寶石之中罕見的佼佼者。它與絕大多數祖母綠寶石不同，重達14.35 克拉，但不含有任何肉眼可見的內含物或裂紋，晶體乾淨，並且從未經過注油等淨度處理。此外，它擁有傑出的鮮豔綠色調和極強的飽和度，純淨透明、鬱綠深邃，呈現出澄澈而欣欣向榮的喜人氣息，絕對是一枚真正的稀世珍品，值得珍藏。

THE FLEUR DE LOTUS RING

Cartier's Haute Joaillerie collection has always been amongst the most sought-after jewelry for high-net-worth collectors and stars at auctions, as each piece is unique and extremely hard to come by. This ruby ring, brought to us by an important collector, is one of the most exclusive pieces of jewelry from Cartier. Since the selection of the stones, to the design and craftsmanship, each step has been done exquisitely, making the ring irreplicable.

Named as "The fleur de Lotus Ring" by Cartier, this 8.388-carat Burmese ruby ring has been established with a Cartier Letter, and certified by three of the world's most prestigious gemological institutes: Gubelin, SSEF and GRS. Its stunning quality has won it a GRS Platinum Award book; Gubelin also published an additional letter and a Gemological Profile for it.

獨一無二的高定珠寶之作-鑽石花冠上的紅寶石

卡地亞的高定珠寶系列向來是受到高淨值人士青睞的頂級珠寶作品，也是歷來拍賣場上最受矚目的嘉賓之一，因其每一件都設計獨到，並具有唯一性，難以購得。此枚紅寶石戒指出處不凡，為重要私人收藏品，正是這樣一件來自卡地亞的高定珠寶作品，從寶石的挑選到設計，再到鑲嵌工藝，樣樣獨一無二，無法複製。

卡地亞將這顆重達8.388克拉的緬甸紅寶石戒指命名為“The fleur de Lotus Ring”，並專門為其發行品牌證書，令有三間世界公認的著名彩色寶石鑑定機構為其備書：古柏林，SEEF和GRS。它的品質之震撼，贏得了GRS的Platinum Award書冊；古柏林亦為其出版附加信以及寶石學詳述。

CARTIER

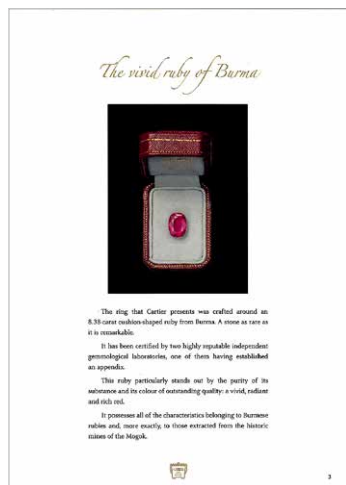

Cartier confirmed this success within the many courts for whom it became the supplier. Edward VII of England and Alfonso XIII of Spain in 1904, Charles I of Portugal the following year, the King of Siam and the tsar of Russia in 1907 successively delivered royal warrants to Cartier. To the point that Edward VII even asserted in a maxim passed down to posterity, that Cartier was the “jeweller of kings and the king of jewellers”.

The fascination that Cartier conveys and its incredible success with a demanding clientele is the result of a subtle alliance, which still guides the Maison today: the strength of style and inventiveness. The marriage between boldness and harmony. Over time, this unrivalled savoir-faire was applied to Cartier's great classics: the garland style of jewellery with neoclassical motifs on platinum mounts; the art of enamel; the arrangement of pearls; creations inspired by Egypt, Persia, China and India, nurtured by the culture and initiatory journeys of the Cartier brothers, always curious about new horizons; the sweet Tutti Frutti compositions, exhaling the heady aromas of fruits and flowers from the Orient; the refined geometry of the Modern style, at the origin of Art Deco, based on combinations of materials and contrasts of colours.

自1847年成立以來，卡地亞一直是高級珠寶界最負盛名的名字，也是眾多宮廷的珠寶供應商。1904年的英國的愛德華七世和西班牙的阿方索十三世，1905年的葡萄牙的查理一世，1907年的暹羅國王和俄國沙皇都相繼向卡地亞交付了皇家認證。愛德華七世甚至在流傳給後代的格言中稱，卡地亞是“國王的珠寶商和珠寶商的國王”。

卡地亞所傳達的魅力和取得的成功，來自於格調和創造性的力量；大膽與和諧之間的完美結合。隨著時間的推移，這種無與倫比的藝術被應用於卡地亞的經典之作：鉑金底座上的新古典主義圖案的花環式珠寶；琺瑯藝術；珍珠；以及靈感來自埃及、波斯、中國和印度的作品，這些作品由卡地亞兄弟的文化啟蒙之旅孕育而來；散發著東方水果和鮮花的迷人香氣的Tutti Frutti；還有現代風格的精緻幾何，它也成為了基於材料組合和色彩對比的裝飾藝術起源。

A MOGOK RUBY

In his book *Mogok, the Valley of rubies*, the famous French writer-traveller Joseph Kessel related a picturesque legend. He recounts that at the dawn of the world, a giant eagle flying over the vast hills of Mandalay, glimpsed a spot of red on the ground below. A red so vivid that the raptor mistook it for the bloody flesh of a tantalizing prey. Intrigued, he pecked at it and discovered with amazement that it was actually an enormous stone of a deceptive blood colour. Fascinated by this gem – the first ruby in history – the eagle decided to carry it to his nest, perched on the highest and steepest peak of the valley: Mogok.

Constructed in the heart of the Burmese Jungle, in an extremely hostile environment, Mogok has been recognized for over a thousand years as the mythic citadel of the most magnificent rubies. Fiery stones that have today become incredibly rare, to the point that each appearance on the market is an event in itself.

Symbol of the most noble human fervours, for Asian civilisations this passionate red also exhibits itself as the symbol of felicity and happiness. Talisman, this Burmese ruby can equally be understood as an evocation of majesty and power, its scarlet colour being reminiscent of the heavy ceremonial costumes once worn by monarchs as well as the ornamentation of emperors' palaces.

關於抹穀紅寶石，有這樣一個傳說：世界的黎明，一隻巨鷹飛過巨大的曼德勒山丘時，瞥見下方土地上的一抹紅色。這紅色那麼鮮艷，巨鷹將它誤認為獵物的血肉。巨鷹好奇地啄了它一下，這才發現它是一顆血紅色的巨大寶石。巨鷹對它十分着迷，便決定將它帶回棲息在山峰絕壁：抹穀上的巢穴。

建造在緬甸叢林的中心，環境極其險惡，千年來抹穀被公認為最傑出紅寶石的大本營。火焰般的寶石如今日漸稀少，如今每一顆的出現都成為市場上的大事。而這顆重達8.388克拉的紅寶石的開采地正是在這抹穀險峻的深處。

對亞洲文明來說，這種熱情的紅色也是人類崇高熱情，以及幸福快樂的象徵。作為護身符，這顆緬甸紅寶石也是對威嚴和權力的喚起，因其紅色讓人聯想到君主重要儀式上的的厚重服裝以及帝王宮殿裏的飾物。

A RUBY ON A DIAMOND COROLLA

It is this over one hundred years of expertise that Cartier has employed to enhance this 8.38-carat Burmese ruby.

Inspired by its provenance and its Oriental beauty, the Maison's designers have imagined a ring of powerful design and strong lines. The curves forming a delicate lotus flower harmoniously marry the ruby's cushion shape.

A burgeoning heart, it is placed like an offering at the core of a luminous crown of petals paved with calibre and brilliant-cut diamonds. Their mineral brilliance fans the inner fire of the Burmese Gem stone and enhances its dazzle.

A delicate jewelled corolla, this ring entirely composed in platinum, surprises by its mastery of volumes, marked by a subtle spacing between the stones. A work of a singular virtuosity, which reveals all of Cartier's exigency and savoir-faire.

卡地亞將一百多年的經驗與專長傾入這枚8.388克拉的緬甸紅寶石戒指。設計師將源自寶石出處和它東方之美的靈感，以富有力量的線條和設計呈現。就這樣，一枚弧度精緻的蓮花戒托和此顆枕形紅寶石完美地融為一體。紅寶石如心臟一般，被捧在由小型角石切割和明亮式切割鑽石組成的鮮亮花冠中心。鑽石的礦物光澤將緬甸寶石內部的火彩映襯的更加閃爍迷人。

The ring that Cartier presents was crafted around an 8.38-carat cushion-shaped ruby from Burma. A stone as rare as it is remarkable.

It has been certified by two highly reputable independent gemmological laboratories, one of them having established an Appendix.

This ruby particularly stands out by the purity of its substance and its colour of outstanding quality: a vivid, radiant and rich red.

It possess all of the characteristics belonging to Burmese rubies and, more exactly, to those extracted from the historic mines of the Mogok.

這枚由卡地亞製作的8.388克拉枕形紅寶石來自緬甸抹穀，稀有珍罕而令人驚艷。由兩間聲譽不凡的獨立寶石鑒定機構為其發行證書。其顏色紅如鮮果，卻同時擁有礦物質的清澈感；它紅得艷麗，而隨著燈光變幻莫測；紅得迷人，引誘著人們的目光，沉淪在它撩人的快樂之中。這顆紅寶石因其極度純淨清澈與絕佳的色澤——鮮豔、明亮和豐盈的紅色而脫穎而出，擁有了緬甸抹谷地區歷來傑出紅寶石的所有優秀品質。

A PAIR OF HEART-SHAPED D COLOR, INTERNALLY FLAWLESS DIAMONDS

All natural diamonds are from deep within the earth, but not all diamonds are of the same quality. This pair of heart-shaped diamonds falls into the Type IIa diamond category, which accounts for only up to 2% of all diamonds. Type IIa diamonds are the most chemically pure and often have exceptional optical transparency. Type IIa diamonds contain almost no impurities and are free from the more common nitrogen impurities within the crystal lattice found in Type I diamonds.

Heart-shaped diamonds have a long history and been favoured by nobilities since as early as 1463. Today, heart-shaped diamonds are increasingly in demand for their sweet and romantic shape. This pair of 15.78 and 15.77 carats D color type IIa, internally flawless heart shape diamonds are the purest hearts in the world, with breath-taking brilliancy and both graded as excellent in Polish and Symmetry. Not only that, the two stones possess a high level of similarity, making them a perfect matching pair of hearts, which is extremely hard to seek.

所有的自然鑽石都在地球深處結晶，但並非所有的鑽石都擁有相同品質。鑽石當中Type I型號是最常見的，大概98%的鑽石都屬於此類，其特點是含有微量的氮原子。另外2%的鑽石屬於Type II類型，不含有氮原子，因而顯得格外純淨清澈。Type II也分為a和b兩種子類別，Type IIb含有微量硼原子，而Type IIa不含有任何可見的其它元素原子置換碳原子，這種類型的鑽石純淨度最高，清澈晶瑩，淨透如水。

心形鑽石的歷史極為悠久，早在1463年，心形鑽石就已經在意大利貴族之間流傳欣賞。如今，心形鑽石因其甜美的形狀和浪漫的寓意受到愈來愈多的追捧。這對15.78及15.77克拉D色內部無瑕的IIa型心形白鑽，可謂是世間最為純淨之心。其對稱和打磨都分別達到了極優級別，火彩悅動，寶光四射。非但如此，兩顆心不論顏色，淨度，切割相似度都極高，彼此心心相印，為收藏級別白鑽中最可遇不可求的一對。

HARRY WINSTON KING OF DIAMONDS

海瑞·溫斯頓對寶石近乎癡迷的熱愛，識別寶石的天賦、以及通過淵博的知識而做出敏銳的判斷，使他毫無爭議地享有「鑽石之王」的美譽。百餘年來，海瑞·溫斯頓珠寶王國製作了傳奇珠寶，引來王室貴族、好萊塢名流和全球大亨的競相追捧。

人們常常以克拉重量、顏色、淨度、切工（4C）來作為評判一枚鑽石的標準，但海瑞·溫斯頓品牌的鑽石被稱為“超越 4C”。他曾經講過：“一顆美麗的鑽石，無論大小，都值得流芳百世，世代珍藏。”大自然決定了一枚鑽石原石的原始樣貌，但一位大師工匠的手能夠釋放它最光輝的火彩。當鑽石的切割恰到好處的時候，光從內部的切割鏡面通過不同路徑進行反射，再進入人眼的時候便呈現耀眼的彩虹光芒。

Labelled the ‘King of Diamonds’, Harry Winston has long been praised as one of the most knowledgeable and passionate collectors of the finest gems in the world. Harry Winston’s expertise in diamonds became the lifeline of the

House of Winston’s iconic silhouette.

His diamonds were often praised for “going beyond the four Cs” and as he eloquently put it: “A good diamond, however small, is a possession to be prized for generations.” Although nature determines the characteristics of a piece of diamond rough, the hands of the master cutter release its fire and brilliance. Harry Winston diamonds are cut and polished to maximize their beauty—even though such a strict standard requires sacrificing much more of a rough diamond’s weight.

A VERY RARE AND IMPORTANT JADEITE BEAD AND DIAMOND NECKLACE, CLASP BY VAN CLEEF & ARPELS

High-quality jadeite materials have been rare since ancient times. To create a high-quality jadeite bead necklace, it requires a rough stone with a large portion of a consistent colour to withstand the great deal of weight loss during cutting and polishing. At the same time, it is extremely rare for a piece of rough stone of this size to display such vibrant colour as well as good translucency due to fine internal interlocking structures. This natural jadeite bead necklace, composing 128 jadeite beads measuring from 11.55mm to 7.48mm, gently combines gorgeous and calm colours with extremely high transparency, smooth and compact interior structure, bright and shimmering luster, and great hardness, perfectly present the extraordinary characteristics of the high quality jadeite itself.

For over a century, Van Cleef & Arpels has been combining unparalleled craftsmanship, technical prowess and innovation in all its creations. Complemented with a diamond clasp from the famous Van Cleef & Arpels, this jade bead necklace is a top-level collection that beautifully blends East and West. The brand has been known for their elegant designs and timeless nature of every piece they create, and this lot is of no exception. This diamond clasp features an elegant bow that adds youthfulness and sophistication to a traditionally designed jewelry piece. With the combination of a finely crafted diamond clasp by Van Cleef & Arpels, and a jadeite bead necklace of top quality, this lot is one to be truly admired.

高質量的翡翠原料自古可遇不可求，要打造一串高品質的珠鏈常常需要原石擁有大部份明顯並色澤統一的色帶，加之要無縫無裂內含物少，要同時滿足以上要素的原石，極難覓得。這串翡翠珠鏈，正是高品質翡翠中難得的一例。它由128顆天然翡翠珠串聯而成，尺寸為11.55mm至7.48mm，完美地結合了嬌豔沉穩的顏色、通透欲滴的透明度、細膩緻密的質地、瑩瑩燦燦的光澤以及堅韌的硬度和韌性，將非凡的天工造化展現得淋漓盡致。

一百餘年以來，梵克雅寶始終將精湛工藝、高超技巧和創新精神融入所有作品中。此條珠鏈的鑽石鏈扣正是出自這著名珠寶品牌梵克雅寶，可謂中西合璧的頂級藏品。梵克雅寶以優雅高貴的設計及經典不退流行的珠寶聞名，而此間拍品也不例外。此件拍品的鑽石鏈扣呈現的是一個類似蝴蝶結的設計，並為此珠鍊增加了一點層次及年輕化了一個一般認為傳統的翡翠珠鏈設計。一條高質量的翡翠珠鏈，配上高雅的梵克雅寶設計鏈扣，這條翡翠珠鏈實實賞心悅目、值得收藏。

明 艷 翠 色 溢 滿 雙 目 , 懾 人 心 魄

Jade is an important part of Chinese traditional culture, symbolizing virtue, preciousness and beauty. It is still one of the most loved and respected gemstones for Chinese people today. High quality jadeite with dense crystalline particles is extremely rare, which makes high-quality jadeite gradually surpass other gemstones and become one of the most expensive categories of jewelry. Its superb craftsmanship and profound cultural connotations have fascinated collectors all the time.

This jadeite bead necklace is amongst one of the most desirable jadeite jewelries. This magnificent jadeite bead necklace is composed of forty three natural graduated translucent jadeite beads, possessing a richly saturated and evenly distributed green coloration, combined with the high translucency as well as their very fine texture. The diameter of these jadeite beads ranging from 13.60-11.50 mm, each of extremely rare and equal size, rich and fabulous tone. Such combination of characteristics makes this jadeite necklace a magnificent piece of matching beauty and importance. Embellished with this jadeite necklace of saturated bright emerald green, an elegant and noble temperament of its wearer is exuded out, dazzling and engaging.

玉是中國傳統文化的一個重要組成部分，中國的玉文化源遠流長，玉石是美德、珍貴和美的象徵，時至今日仍是國人最為喜愛和推崇的寶石。當中，結晶顆粒細密的高品質翡翠更是極其稀少，這使得優質翡翠逐漸超越其他寶石，成為最為昂貴的珠寶種類之一，其高超的工藝品質及深刻的文化內涵，都令藏家們趨之若鶩。

翡翠珠寶中，尤以珠鏈最耗時廢料，對原石的要求非常高，尤為珍貴。此次拍賣所甄選的這條翡翠珠鏈，由四十三顆碩大圓潤的天然翡翠珠串連而成，翡翠珠直徑約達到13.60-11.50 mm，碩大罕有，且大小均勻，色澤濃鬱，翠色艷麗欲滴，顆粒晶瑩純淨，放眼望去，其飽和度極高的明艷翠色溢滿雙目，懾人心魄。佩戴於身，散發出雍容優雅的氣質，絕對是一件無與倫比的藝術品。

一片玉葉，福澤一生

Chinese people regard jade as “the stone from heaven”, the jadeite culture is broad and profound, which composed the essence of Chinese traditional culture. Jadeite Leaf is one of the most classic kinds of jadeite pendant. The pronunciations of “leaf” and “business” are the same in Chinese, thus it conveys the message of blessings from the elderly to their children and grandchildren for prosperity, booming business and a fulfilled life. The rich green leaves are associated with luxuriant foliage, which also symbolizes a joyful big family.

“Imperial Green” is considered as the rarest and highest quality of all types of jadeites, as it represents the most beautiful color and translucency that jadeite could ever exhibit. This Jadeite Leaf Pendant belongs to the very few jadeite plaque pendants that is classified as “Imperial Green” by Gübelin. It is of rich green and high translucency, with beautiful curves on the surface, measuring approximately 59.1 x 33.4 x 9.56 mm. It has been carefully designed by traditional craftsmen according to the shape of the original stone and is meticulously carved with prestige craftsmanship.

玉葉金柯 天然帝王綠翡翠「葉子」配鑽石掛墜項鏈

賞玉容天地，藏玉貫古今。中國人把玉看作是天地精氣的結晶，以玉為中心載體的玉文化博大精深。翡翠葉子，是為翡翠挂件中的經典之作，因“葉”與“業”同音，寄托著長輩對子孫安居樂業，家庭幸福，人生美滿，大業有成的美好願想，是激勵、更是祝福。樹葉也象徵著枝繁葉茂，多子多福。

帝王綠翡翠向來是收藏者眼中的極品。此件翡翠葉子掛墜達到了古柏林鑒定機構的「帝王綠」級別，是極少數被故柏林評為「帝王綠」的翡翠牌掛墜，可謂稀世之珍。它通體滿綠，圓潤通透，綫條柔美，尺寸碩大，達到約59.1x33.4x9.56mm。它由傳統匠人根據原石本身的形態進行精心設計，並用超高的工藝細心雕琢，配以鑽石鑲嵌，背面更用紅寶石組成兩隻穿梭於林間的蝴蝶，實為一件生機盎然的頂級翡翠藏品。

The natural jadeite jade possesses a richly saturated and evenly green colouration, referred to as “imperial green” by Gübelin Gem Lab.
這枚天然翡翠被古柏林鑒定為“帝王綠”

AN EXCEPTIONAL JADEITE BANGLE

China has been a country extremely fond of jadeite, and the use of the stone has began early on in its history. We can see from many historical paintings Empress Dowager Cixi with her arms wearing jadeite bangles, painted green in the artworks. From this, we can say that green is the most popular color of jadeite jewelry. However, because jadeite is a treasure of nature, it is incredibly difficult to find a large piece of it that is all green. A fully green jadeite bangle is the rarest of all jadeite pieces, as the need for a large piece of jadeite to be green and flawless is nearly impossible. On top of that, to carve out a bangle requires one to abandon much of the material that is of top quality. Therefore, compared to jadeite cabochons or jadeite bead necklaces, jadeite bangles are the rarest of them all.

This lot presented here is an exceptional green jadeite color of great translucency. As mentioned earlier, jadeite bangles are rare to come by, and this one in particular is even harder because of its cylindrical round shape. It requires more material to be wasted when carving it out. This lot presented here is a jadeite bangle of great shape, color, and translucency; an extremely elegant and noble piece that is sought after by many collectors.

中國是一個崇尚玉文化的國家，開採和使用玉的歷史源遠流長。而從許多繪畫中可得知慈禧雙手戴著滿綠色的手鐲，從畫面上看手鐲屬於濃豔的綠色。綠色為翡翠中最受歡迎的顏色，然而因翡翠為天然產物，能得到一整塊料子都是極品的綠色翡翠實屬困難。滿綠的翡翠手鐲在眾多翡翠飾品中也最為稀有，因為需要整塊料子都是綠色的，才能切割出一隻手鐲。加上為了將翡翠料子切成條狀需要捨去許多上等的翡翠料子，所以相較於蛋面或是翡翠珠鏈，翡翠鐲子的數量更為稀少。

此件拍品是一條滿綠圓條的緬甸天然翡翠手鐲。前面有提到滿綠翡翠手鐲的稀有度，而圓條的手鐲又是其中更稀少的，因為需要耗費的材料又更多。此件拍品有著溫潤的色澤、圓潤的條型，高貴無比，是許多收藏家夢寐以求的極品翡翠手鐲。

A RARE AND EXCEPTIONAL MULTI-GEM AND GOLD BRACELET

The mysterious and enchanting snake symbolizes the beauty, strength and rebirth in the Western world, and has become an important inspiration for jewelry brands including Bulgari, Cartier, and Boucheron to create classic designs. This unique and rare antique bracelet is made of gold in the shape of a “snake”, set with old mine-cut diamonds, as well as emeralds, sapphires, rubies, turquoise, pearls and various colored gemstones, wrapping around the wrist, gorgeous and noble.

It is also mentioned in the “Replacement Value” report of this piece that it was made by the old French jewelry brand Mellerio around 1850 to 1870. As one of the oldest jewelers in Europe, Mellerio is deeply loved by royal celebrities all over the world for its exquisite craftsmanship, and has customized jewelries for many royal family members. In the commemorative book published by Mellerio, you can also find the reproduction of a bracelet of the same inspiration on the arm of Princess Mathilde.

Gorgeous setting, classic design, and strong historical all making the bracelet a true collector's piece.

充滿神秘感和魅惑的蛇，在西方世界象徵重生的美好，力量與純潔，更成為了包括寶格麗、卡地亞、寶詩龍等珠寶世家打造經典設計的重要靈感。這枚獨特而罕有的古董手鐲，以黃金打造“蛇”造型，鑲嵌老礦式切割鑽石，以及祖母綠、藍寶石、紅寶石、綠松石、珍珠等多顆彩色寶石，環繞在腕間，華麗而大氣。

在針對這件作品所做的《重置價值》報告中，特別提到其出自法國老牌珠寶品牌Mellerio，於大約1850至1870年間打造。Mellerio作為歐洲歷史最悠久的家族珠寶商之一，以其精湛的工藝，深受世界各國皇室名流的喜愛，為多位皇室成員訂製珠寶。在Mellerio所出版的紀念書籍中，也記載了Mathilde公主曾經所訂製的與這件拍品擁有相似靈感設計的手鐲作品。

華麗的鋪陳，經典的設計，加上濃厚的歷史韻味，造就了這枚難得可貴的作品，值得收入囊中，倍加珍藏。

DARLING JEWELRY

Inspired by natural wonders, the designer has recreated the rich and diverse beauty of the caves in the pieces. The design elements are based on the flow of the karst, with the Kunzite as the center stone and color sapphire in the surround, exuding a dreamy glamour. The natural flow of the shape, the gentle curves of the geometric design and the colorful interplay of the stones bring out the liveliness and beauty of the piece.

DARLING JEWELRY pursues the concept of practicality of jewelry, as the designer attaches great importance to the jewelry's function and wearability. The pendant is designed to be worn in three different ways: the stylish single ear pendant; the main stone can be detached and worn as a pendant; and the 18-carat white gold frame set with colour stones and diamonds can also be worn as a pendant on its own for a dynamic look.

DARLING JEWELRY黛琳珠寶「溶洞」設計理念：

珠寶設計師從自然奇觀溶洞中汲取靈感，將渾厚蒼勁、參差崢嶸的溶洞之美，通過作品惟妙惟肖地表達出來。設計元素採用了岩溶地貌強烈的流動特質，主石選取了紫色鋰輝石，呈現出夢幻般的魅力，在不同彩色藍色寶石的簇擁下，彼此交相輝映。自然流動的造型，曲線柔和的幾何設計，主石與配石的多彩交織，使作品充滿生命力和自然靈動美。

黛琳珠寶追尋珠寶佩戴本身的實用性設計理念，設計師會多方位考慮佩戴的實用性及多功能性。其中，吊墜設計可分為3種佩戴模式：最具個性單耳墜佩戴功能獨出心裁；主石部分還可單獨拆卸作為吊墜佩戴，經典簡約；18K白金鑲彩色寶石及鑽石的外框，亦可單獨作為吊墜佩戴模式，靈動時尚，光怪陸離。

CONCH PEARL

Conch pearls, known as one of the most unique and luxurious gems around the globe, produced by the Queen Conch mollusks which live in the warm tropical waters near the Caribbean. Every single one is not merely natural, but as well extraordinary. Just like this suite of conch pearl and diamond jewelry resents, the finest exemplars display a distinctive wave-like 'flame' with a creamy, flawless appearance and unique shimmer. Unlike the nacreous pearls, there is no method culturing these gems. With the possibility of finding a conch pearl being one in 50,000, and with less than 30% that the pearl will be gem quality, conch pearls are considered very rare indeed.

Conch pearls come in a wide variety of colours: orange, salmon, brown, yellow, white and many others, but the rarest of all is pink. Although they are composed of same chemical elements as pearls, conch pearls have a different polycrystalline structure to other pearls. The microcrystals in conch are fibrous prisms arranged perpendicular to their surface. When light goes through the fibres, a shimmering light appears, creating the famous 'flame' pattern.

The conch pearls in the pair of earrings are of a sweet pink and high color saturation, with a distinctive flame pattern. They are set with diamonds and onyx for a modern look that speaks of the charming beauty of a young lady.

海螺珍珠，又名孔克珍珠（Conch Pearl），大自然的鬼斧神工，非但不能透過人工養殖，更是寥若晨星。它們來自產於加勒比海海域的大鳳螺（Queen Conch），日本人稱它們為女王鳳凰螺。平均每五萬隻大鳳螺中，只有一顆可用的海螺珍珠，而當中僅有兩至三成符合製成珠寶首飾的標準與質量。全球每年只有少於900顆海螺珍珠可以製成璀璨的珠寶，寥寥之數，極其珍貴。

海螺珠色彩種類豐富：橙色，鮭肉色，棕色，黃色，白色等皆不在少數，卻以最為稀有的粉色聞名。雖然與珍珠有著同樣的化學成分，海螺珠卻與其他貝母珍珠有著截然不同的多晶結構。海螺珠中的微晶體為呈纖維狀的棱柱晶體，垂直於其表面排列。光線經過表面纖維時出現閃爍的微光，這便是著名的“火焰紋”的產生原理。

這一對海螺珠耳環，每一顆都色澤粉嫩飽滿，火焰紋明顯。搭配鑽石及瑪瑙鑲嵌，清雅脫俗，娓娓道出恍如少女的嫵媚俏麗。

NATURAL PEARL

Throughout history, natural pearl, with its warm inner glow and shimmering iridescence, has been one of the most highly prized and sought-after gems. Countless references to the pearl can be found in the religions and mythology of cultures from the earliest times. In ancient Rome, pearls were considered the ultimate symbol of wealth and social standing. The Greeks held the pearl in high esteem for both its unrivaled beauty and its association with love and marriage. They have been treasured by royal and imperial families around the globe.

For this spring auction, Poly Auction HK proudly present this pair of extremely rare natural pearl ear pendant, which is mounted by the renowned Parisian jewelry brand Boucheron. Since its establishment, Boucheron has been supplying prestigious jewellery to royalty and nobility around the world. This pair of natural pearls, accompanied with GIA and SSEF certificates, measures a generous 13.69 x 12.40 and 13.24 x 12.64mm and each attached to a diamond floral surmount. The diamond surmounts are detachable and can be worn as ear clips separately.

珍珠有着古老悠長的歷史，自古以來便是無數唯美的神話與傳說的靈感源泉。珍珠所特有的悅目之美，浸滿了大自然的神性，無以倫比。典雅與高貴的珍珠無論是在中國還是在歐美，一直被皇家王室所珍愛。

天然珍珠是世上唯一完全成長與生物體內的有機寶石種類，孕育於軟體動物內，集合由於內分泌作用而生成的大量微小的文石晶體而成。與養殖珍珠不同，天然珍珠的形成不經任何人工干預及修飾加工，其顏色、尺寸、形狀受到水質、天氣、環境、甚至收穫季節等因素的影響，並且從珠層結構、密度、螢光度和透光度等方面也略勝一籌。由於天然珍珠已難以再生產，如今市場可見的天然珍珠多分拆自有百年歷史的古董珍珠珠寶。

本次呈獻的一對天然珍珠耳環，由歷史超過百年的著名巴黎珠寶品牌寶詩龍鑲嵌。自創立以來，寶詩龍便向世界各地的皇室及名媛提供著不同凡響的頂級珠寶。此對天然珍珠配有GIA及SSEF證書，尺寸碩大，達13.69 x 12.40及13.24 x 12.64毫米，分別連接充滿幾何美感的頂部鑽石耳夾。珍珠和鑽石耳夾可拆卸分開佩戴。

BRAZILIAN PARAIBA

The unusual blue-green Paraiba tourmaline was first discovered in the Brazilian state of Paraiba in 1989. Now the “neon-bright” paraiba tourmalines are one of the most sought-after gems in the world. These gems had an unusual vivid blue-green that had never been seen before in any gemstone. Paraiba tourmalines typically have “neon” colors that are brighter than we find in Tourmalines without copper. Analysis showed that this unique effect was due to the presence of copper and manganese. Although there are new finds of copper-bearing tourmaline in Nigeria and Mozambique in 2001 and 2005, still, the paraiba tourmaline from Brazil possess the most mesmerising vivid blue-green color among them all.

Paraiba tourmaline is amongst best performed semi-precious gemstones and has been setting records in auctions in recent years, thus attracting increasing interests from collectors all over the world. The set of Paraiba presented in this auction is set with crystal-clear and neon blue Paraiba, which possesses all the best qualities of Brazilian Paraiba. It is designed exquisitely and luxuriously mounted with diamonds; the ring can be detached and worn as a single hoop.

帕拉伊巴碧璽1989年發現於巴西東北角大西洋岸Paraiba州，這種霓虹藍色的碧璽因產地而得名，不過該處地形艱難採礦不易，如今已經礦產稀少。後來分別於2001年和2005年在奈及利亞和莫桑比克兩地發現了新的礦床，雖對市場而言有所紓困，然而巴西出產的帕拉伊巴在色澤上較其他產地亮麗濃艷，更惹人喜愛。和藍碧璽Indicolite不同的是，含高量銅和錳的帕拉伊巴呈現出來的藍是像霓虹燈的艷彩，英文也都用neon-color霓虹色或是像上了螢光塗料的寶石來形容它的鮮明色澤。

帕拉伊巴碧璽近年來在拍場上屢創新高，表現非常優異，是十分值得關注的新興寶石門類。此次上拍的這一套耳環及戒指中的帕拉伊巴，晶體澄澈，顏色碧藍如海，且呈現出強烈的霓虹色澤感，可以說是擁有了巴西帕拉伊巴所有最優秀的特質。戒指中的帕拉伊巴達到2.58克拉，配一對圓形切割的帕拉伊巴耳環，設計精緻巧妙，其中戒指部分可以拆卸成單圈佩戴。

HARRY WINSTON

Along with rubies, sapphires, and diamonds, emerald is one of the world's most highly prized gemstones. Its vibrant green hues have captivated people's imaginations through the centuries, from ancient Pharaohs to Spanish and Portuguese Conquistadors.

Today, Colombian emeralds prevail in market dominance with its unprecedented color and fine quality. It provides a quality standard which all other emeralds are judged against. Due to the extreme conditions where emeralds crystalize and its internal structure, it is almost impossible for emerald crystals to appear large and clear. They tend to have inclusions of many forms such as liquid and gas bubbles. The liveliness they represent is even romantically described by gemologists as "Jardin" (French for "Garden"). The clarity grading standards for emeralds are thus different from that of diamonds or other colored stones. It is commonly accepted in the gem trade that an emerald would have been treated with oil by filling in surface-reaching cracks so that clarity and stability are enhanced.

The brand of the same name, founded by Mr. Harry Winston in New York in 1932, has been setting new benchmarks for magnificent jewelry production for nearly a century. Mr. Winston believed that every stone was unique, just like every person is unique. Based on this revolutionary philosophy, Harry Winston created the name "Winston Cluster" inlaying method. Labelled the 'King of Diamonds', Harry Winston has long been praised as one of the most knowledgeable and passionate collectors of the finest gems in the world. Harry Winston's expertise in diamonds became the lifeline of the House of Winston's iconic silhouette.

The design of the emerald necklace being presented this time perfectly reflects the ultimate aesthetics of Harry Winston. A total of 20 Colombian no-oil emeralds weighing 65.75 carats, and 100 marquise-shaped diamonds were used. The two kinds of gemstones each intertwine with another, bringing out the most brilliancy of the breath-taking piece.

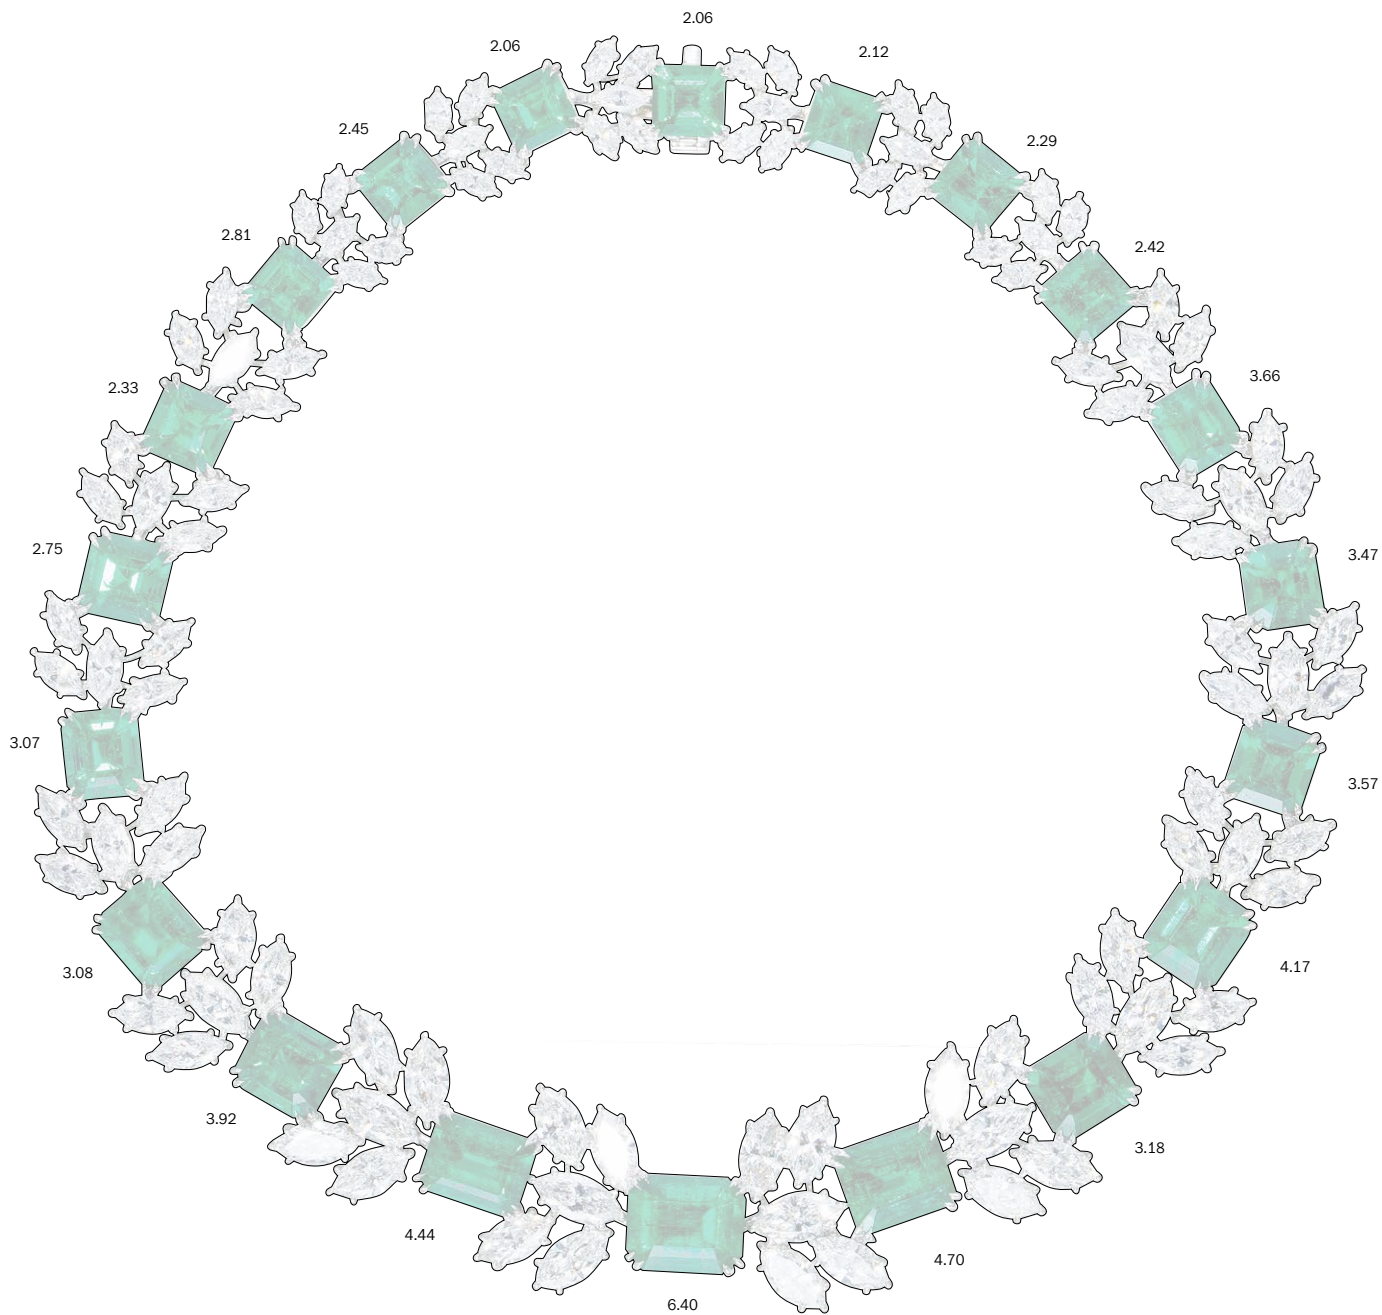

祖母綠被稱為綠寶石之王，是國際珠寶界公認的四大名貴寶石之一，是幸運與幸福的象徵。幾千年來人們的喜愛和追求使得歷史上一一些非常有名的祖母綠礦場被開採殆盡，當下最著名的祖母綠出產於哥倫比亞，以其顏色佳質地好而被公認為珍品。

哥倫比亞祖母綠的品質特徵為全世界祖母綠的標準，產於此的祖母綠寶石，價格也會較其他產地高。由於其生成環境的嚴苛及複雜程度，祖母綠晶體中幾乎都包含著包括小晶體、氣泡、或者液體的又多又繁雜的內含物，寶石研究者甚至給它們起了浪漫的名字叫做「花園」。因此，業界對祖母綠其淨度的評級也與一般鑽石和有色寶石不同，對改善其淨度的注油優化方式接受程度也相當高，因此絕大多數的祖母綠寶石都經過不同程度的注油處理。

於1932年由海瑞溫斯頓先生於紐約創立的同名品牌，近百年來始終不斷為璀璨珠寶的製作奠定嶄新標竿。海瑞溫斯頓對鑽石的選材及切割工藝一直遵循有著業界首屈一指的標準並始終堅持珠寶設計要以注重寶石本身來引導設計方向。海瑞·溫斯頓對寶石近乎癡迷的熱愛，識別寶石的天賦、以及通過淵博的知識而做出敏銳的判斷，使他毫無爭議地享有「鑽石之王」的美譽。百餘年來，海瑞·溫斯頓珠寶王國製作了傳奇珠寶，引來王室貴族、好萊塢名流和全球大亨的競相追捧。

此條祖母綠項鍊，其整體設計完美映襯出海瑞溫斯頓的極致美學。一共採用了20顆共65.75克拉產自哥倫比亞的無注油頂級祖母綠，且都色澤飽滿，搭配鑲嵌100顆業界最為頂級切割工藝的橢圓形鑽石，兩種寶石交相映襯，顯現無與倫比的光彩。

AGL CLASSIC BURMA SSEF 'PIGEON BLOOD' RUBY

With gem production in ore producing areas around the world, including the declining of Myanmar, the presence of rubies larger than 5 carats should be a cause for celebration for gem collectors. The pair of 5.12 and 5.03 carats Burmese rubies with incredibly matching color and crystal are it a true treasure in the market.

The biggest highlight of this piece is that SSEF, the world's authoritative quality inspection agency, Gubelin and GRS all rated its color as "pigeon blood red". In the international gemstone industry, the authoritative appraisal agency SSEF (Swiss Jewelry Research Institute) and Gubelin (Gubelin Laboratory) have a strict unified grading standard based on color and quality for the use of "pigeon blood red". To be classified as "pigeon blood red", rubies must be rich, saturated, and uniformly bright red, with no distinct secondary tones (such as blue or brown), and a very subtle purple tone is acceptable. Its three specific indicators: tone, saturation and lightness, must refer to the authoritative appraisal institution "standard colorimetric stone" for grading assessment. Its body color should show strong fluorescence under UV irradiation. The fluorescence is caused by the higher chromium content and the lower iron content, which makes the "pigeon blood red" gemstone show the "internal burning sensation".

Additionally, the AGL laboratory has also recognized it as AGL Classic™ Burma. Not all gems deserve this noble title, only rubies with top gemological characteristics and qualities are eligible to be awarded. And gems that can pass such a rigorous rating are even rarer in the market.

隨著全世界各地，包括緬甸的礦石產地寶石生產量的下降，任何大於5 克拉的紅寶石的出現對於寶石收藏家來說都是值得慶賀的。此次極為珍貴的一對5.12及5.03克拉紅寶石色澤飽和明亮，顏色匹配，晶體相當，是自然界不可多得的珍寶。

本件拍品最大的亮點為：世界權威寶石實驗室SSEF，Gubelin及GRS 均評級其顏色為「鴿血紅」。在國際寶石業，SSEF（瑞士珠寶研究院）和Gubelin（古柏林實驗室）就「鴿血紅」的使用有著基於顏色和質量的嚴格統一分級規範。被分級為「鴿血紅」的紅寶石必須具有濃郁、飽和以及均勻的正紅色，沒有明顯的其它輔色調（如藍色或褐色），極微小的紫色調可以被接受。其紅色的三個具體指標：色調、飽和度以及明暗度，必須參照權威鑒定機構「標準比色石」進行分級評定。其體色在紫外光的照射下應顯示強熒光。該熒光由較高的鉻含量及較低的鐵含量所致，使「鴿血紅」寶石呈現「內部灼紅感」。

除此之外，AGL 實驗室更認定其為緬甸所產經典紅寶石（AGL Classic™ Burma）。鮮為人知的是，並非所有寶石都配得上如此稀有且尊貴的稱謂，只有同時具有頂級寶石學特徵及品質的紅寶石才有資格被授予。而能夠通過如此嚴苛評級的寶石，在市面上更是可遇不可求。

HKD 580,000-680,000

USD 73,900-86,600

FANCY VIVID YELLOW

The formation of a diamond's illuminating brightness takes pressure, fire, violence, and the slightest pinch of chance. When carbon atoms are substituted by nitrogen atoms, the diamond absorbs blue and purple lights and appear yellow. The different tones of yellow can range widely. Yellow diamonds account for only 0.1% of all natural diamonds. For all those classified as a yellow diamond, only less than 5% will achieve the highest color grade of being fancy vivid yellow.

We are very proud to present in this auction this captivating yellow diamond with a natural, even colour distribution face up. The diamond has been rated by GIA as Fancy Vivid Yellow. The carat weight for this diamond is an astounding 74.48. Such a large carat diamond, with an internally flawless clarity, is definitely an indispensable treasure for diamond collectors. This diamond shows amazing brilliance and fire by reflecting and refracting the surrounding panorama of light to the viewer's eye in a mosaic and artistic composition, full of vibrancy and vitality.

鑽石璀璨奪目光輝的形成過程充滿著重壓、烈火、暴力和妙至纖毫的時機。當鑽石中的某些碳原子被氮原子取代時，瓊漿凝結形成的鑽石晶體便會吸收藍色和紫色的光線，展現清新與炙熱並存的黃色。真正的黃鑽僅占天然形成鑽石的0.1%，其中顏色飽和度達到豔彩級別（Fancy Vivid Yellow）的黃鑽更是只有不足5%。

而本次拍賣所呈現的這枚彌足珍貴的黃鑽，天然的璀璨黃色均勻地分佈於枕形切割鑽石的面，瑰麗不凡。不僅有著「鮮豔黃色」的色彩評級，更有著74.48 克拉驚人的重量。如此大克拉的鑽石，達到了內部無瑕的淨度，絕對是鑽石收藏家們不可或缺的珍藏。當鑽石呈現在眼前時，我們可以慢慢欣賞它的精心切割，鑽石無以倫比的光學性能被完全釋放，反射周圍所有角度的色彩和光芒，亮度奪目，火彩明媚，充滿活力和生命力。
